THE DODGE CITY TROUBLE.

The newspapers of last week contained sensational and lying accounts of the trouble which happened in Dodge City about May 1st. At the time of the alleged trouble dispatches were sent to the Leavsoworth Times, Kansas City Journal and Topeka Commonwealth, containing a brief account of the occurrence. At this time no particular thought outside of Dodge was entertained of the affair. Two weeks later, a dispatch was received from Gov. Glick, addressed to one W. F. Petillon, ask that a representative Democrat be sens to Topeka to confer with the Governor. Petillon was deputized to go, having been elected at a canons held in Harris' saloon. Petillon's visit to Topeka and Kansas City is well known, he having been the author of the vile, malicious, lying stuff furnished the daily papers regarding the situation in Dodge City.

The Dodge City TIMES, two weeks ago. contained a short account of the trouble which has since given so much newspaper potoriety. We stated then that the enorcement of the ordinance in regard to to the "Suppression of prostitution," had given some trouble. The ordinance provided for the fining of all prostitutes found loitering in saloons or upon the streets. Three prostitutes, under the advice of Harris & Short, were employed in the saloonfof these men, purposely, as it has since been shown, to evade the operation of the ordinance. The women were arrested and placed in the calaboose. The arrest caused Luke Short to become angry, and he sought to appease his wrath by firing upon City Clerk Hartman, who is engaged on the police force. Short fired two shots at Hartman without effect. Short was arrested and placed under \$2,000 bonds. Short assumed a defiant attitude. He caused the city attorney to rise from his bed, under threats at the point of the pistol, in order to obtain bonds for the women who were arrested. The situation at this time was critical. Some prompt and speedy measures must be taken. Here was a bold and aggressive defiance to the law. It was known that a conspiracy existed, for the purpose of making an room by a slight attack of lung fever, but armed resistance to the enforcement of the law. How to meet this armed compact waslarranged by Mayor Deger and the police force. On Monday, April 30th. warrants were issued for the arrest of six persons, including Short, known to be engaged in the conspiracy. The gentleman." The Governor's tastes are arrests were made without any resistance, and the men placed in the lock-up. The

went in different directions. Short went to Kansas City where he was joined by the Eureka Irrigation ditch, is surveying Petillon, the emissary to the Governor. Short and Petillon very industriously furnished the newspapers with the accounts which have added disgrace to Dodge City. Governor Glick telegraphed to Sheriff Hinkle, on Friday last, asking for information in regard to the talleged trouble, and offering the assistance of the militia to "quell the riot or disturbance." The sheriff replied that Dodge City was in R G. Head will take charge of the perfect peace. Messrs. R. M. Wright and R. J. Hardesty also telegraphed to the Governor informing the executive that Dodge

prisoners were given so many hours to

had a company of militia in readiness, having based his opinion of the situation in this city from the statements furnished by Petillon. At the time of the passage of the ordito M. S. Culver, chairman of the Ford nance in regard to prostitution, an ordinance in regard to gambling was also passed. The object of these ordinance was for the purpose of putting the vices The friends of H.V. Cook surprised him under control and providing fines for the regard to the situation at Dodge City, and Neither prostitutes nor ga been prevented from plying their business. But the city council desired that these vices should be controlled without totally disposing of them. The gamblers asked mum, promising a strict obedience to the law in other respects. This demand was courteously made and was cheerfully given. Immediately upon this action the

prostitutes in Harris' saloon were arrested as we have stated, and also the shooting affray occurred. A great deal of stress is laid upon the conduct of the city election. The ssue in that election was plain — it was whether the city should be turned over to a mob, or whether the city should be governed by men who had a decent respect for the law. Mayor Deger and ilmen Beverley, Drake, Emerson, Sturm and Bell, and Police Judge Burns were elected by majorities of 70 and upwards. It is probable bad feeling still

existed in regard to the election, which

occurred on the second of April, but under that bad feeling was probably a desire to run the city as was intended had the Harris faction been successful. Thieres. thugs, robbers, murderers and vagrants have no abiding place in this city. Had the election been otherwise this class of people would have found a hearty welcome in Dodge City. People who have respect for decens conduct and who abhor vice, otherwise, and will continue to uphold and sustain the authorities in the course they have pursued, and in any course

they are likely to adopt for the peace. dignity and protection of the city-Dodge City is unlike the city of two o three years ago. While vice and illegitimate traffic is carried on here, there is restraint in the conduct of these unlawful things. The better class of people even virtue or morality, are on the side of the authorities. So long as the better element of this class hold obedience to the law, so long will they be allowed to carry on unlawful business. But an attempt to evade the law or repress the officers in the discharge of their duty will be met with strong and stubborn resistance. While it is not desired to suppress vice totally it is simed to control it within the bounds of good conduct at least-so far

that it shall not be repulsive and offensive in the sight of any one.

the storm about 100 Sunday school child-ren had vacated the church building. sire to subvert legal authority brought on Such mysterious ways of unexplainable the disturbance which has been given so much publicity in the newspapers of the country. Hyatt, one of the gamblers who was arrested at the time of Short's incarceration, was held looser than the rest, side of the river, commencing west of against the legally constituted authority range 26 and running to the State line. of the city. Hyatt stated that Short was " weakened" and the plan was not carried only.

out, only so far as Short's attempt at intimidation on the Saturday night previous to the arrest made on the Monday follow-

The antagonistic feeling was greatly subdued, and Dodge City was enjoying peace, until the advent of Petillon among the newspaper reporters. The sensational stories greatly exasperated the people of Dodge City, but a quiet feeling has again been restored. At no time did the Mayor and police officers assume any authority not delegated to them by law. The arrests were made; under properly sworn warrants, the charges being vagrancy, assault with intent to kill, etc. and the punishment-banishment-is in keeping with the rules of the cities, where improper characters, vagrants, and others are given the alternative of going to the rock pile or a trip to another city.

Force will be met with force. It is proper to state here, though the fact is well known in Dodge City, that the city administration will use no mild means in the suppression of lawless characters.

KEEPS THEM ON THE GO. The Topeka Capital sums up the "Dodge City trouble" correctly. It says: "The people of Dodge City it seems from all accounts got very tired of being kept in continual broils by the gamblers and prostitutes and ordered a number to leave town, and made them go. Out of this has grown many sensational reports regarding affairs in that city. We learned last night that the Governor had been requested to send militia there, to protect these characters in returning. Dodge City has long had the reputation of being the home of many dissolute and reckless characters. If it proves as we believe it will, that the present trouble is the determination of the business and decent people of that town ridding themselves of quarrelsome characters they will have the sympathy good people everywhere. There is probably no occasion for Governor Glick turning out the militia, as every town by its officers takes the right to order suspicious or bad characters out of

city in the country and it keeps trampe and vags of all kinds on the go. A BAILBOAD FROM WICHITA TO

town. This is done every day in every

DODGE CITY. A dispatch from Wichita to the St. Louis Globe-Democrat says: The Atchison, Topeka and Santa Fe Railroad Company have organized a corps of engineers at this point, and will to-morrow begin the survey of a line from this city to Dodge City, 100 miles west. The line leave town, and were given the privilege will run through Kingman. Sedgwick, of making choice of trains. The men Pract. Pawnee and Ford countries, and will be the short cut and main line from Kansas City, Emporia and Wichita to Pteblo and the mountains, avoiding the great bend of the Arkausas river and shortening the route about sixty miles.

A TOLEBABLY FAIR GUESS. The Mobeetie Panhaudle says: At Dodge City, a few days since they had interesting times-for at least a part of the population. The gamblers were set down upon under the vagrant act. They were rounded up and cast into the dungeous of the city until those receptacles were full, and the remainder were close herded about the bastile by special police until they City was in perfect peace and enjoying were all collected. Then as the trains prosperity. It appears that the Governor passed they were given their choice of directions but none as to their going, the authorities paying their fare to the State line. From the account the green cloth industry must have been overworked.

NO MILITIA NEEDED. The Topeks Capital of Saturday last ontained the following: "The Governor telegraphed the sheriff of Ford county in requested him to secure the co-operation peace. Troops can be furnished if neces sary, several different companies having been notified to keep themselves in readiness to go to Dodge at a moment's notice. that the fines be reduced below the minis The reply was sent "no troops needed."

> A post office has been established at Beaver, Neutral Strip. I. T., seventy-five miles south west of Dodge City, on the Tascosa mail route. Messrs. Lane & Reep have a ranch store at that point, which is at the crossing of the Jones & Plummer trail on Beaver Creek. Mr. Reep was in the city and left to-day. He keeps a good essortment of ranch supplies.

William Wilkinson, seven miles west of town, has a fine stallion. Black Hawk, and a S-year old jack which will be for service the season.

Morris Collar has purchased all of the town lots surrounding the public school louse. He bought these lots at wholesale and will sell them at low prices by the single lot.
